

## *Sydney 32* North Sails Aramid 3DL class inventory – 2008

North Sails range of Sydney 32 sails are based on proven ongoing development and results from our expert team of sailors. The exceptional on water performance of our sails, is backed by excellent service and advice from the North Sail team. Our detailed tuning guide will enable you the opportunity to exploit the performance potential from your North Sails.

The North Sails Sydney 32 OD racing inventory uses the unique North 3DL technology which thermo moulds sails on a full sized 3D mould with continuous yarn (fibre) paths. Aramid yards are used for low stretch and a long racing life.
